

BALI LIGHTHOUSE GLOBAL COMMUNITY

"making a difference in the life of the children and the families"

Our Journey

Started in 2013, Bali Lighthouse Foundation was commenced the Bali Lighthouse Global Community as home-school community in Canggu then moved to Umalas until now.

Our homeschool offers children an Education for Life - imparting knowledge and skills so students can develop their character, personal leadership, work ethic, compassion and values, and become thoughtful, confident, principled and dynamic individuals in the world.

1

STEADY

reliable and qualified care and education for holistic learning

2

SAFE

safe and positive environment will support learning

3

INSPIRING

We don't just teach, we inspire!

Bali Lighthouse Foundation started in 2013

as a centre of education and training beyond mainstream education. Together with passionate and talented people, we did vocational training, parents-teachers workshop, and many more.

Bali Lighthouse Global Community

offers home-based education with inquiry based learning for children all ages, all year around. We believe children will learn their best when they feel safe and comfortable as in their own home.

Discover Yourself

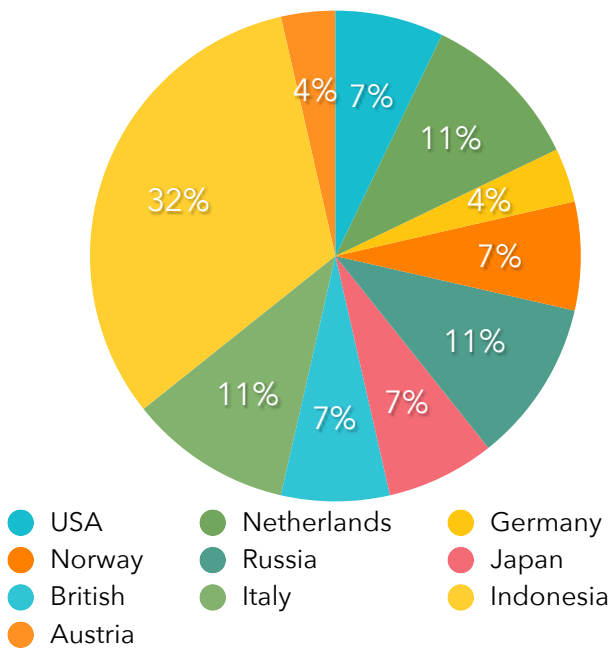

Bali Lighthouse gives full of opportunities for personal development, achievement and enjoyment. We have a holistic approach to education based on academic excellence, a diverse and strong extra-curricular activities programme, and personalised care to each child’s development. We encourage children to develop their strengths and realise their ambitions.

Learning for life

We strongly believe that children have ability to adapt since early years, thus exposing them to diversity will prepare them to be global citizens.

Students’ nationality

Starting at a new community is both exciting and challenging for children. Our facilitators and staff will ensure the safety and comfort for them. And our vibrant and welcoming student community will ensure a smooth transition of children to the new school environment.

Empowering diversities among students, parents and teachers is a hallmark of the Bali Lighthouse Homeschool Community. The dynamic within the community cultivates a keenness in children to think, ask questions and solve problems independently as well as collaboratively. Therefore, children will be bright individuals who apply their knowledge and skills to the real world through inquiry, interaction and practical activity.

EVERY CHILD IS PRECIOUS

Bali Lighthouse Global Community Homeschool welcomes applications from children of all nationalities that have a willingness to contribute to the homeschool community. Children who have SEN (Special Education Needs) are welcomed at the Bali Lighthouse as we offer Individualised Education Program (IEP) and reasonable adjustments would be ensured until they are fully integrated into the community.

Learning beyond text-book

Inquiry-based learning will provoke their innate talent as an explorer.

Our curriculum is tailored eclectically. We believe children have breadth natural curiosity to explore nature, arts, sports, language, and social life. Therefore, we combine variety resources and materials for learning.

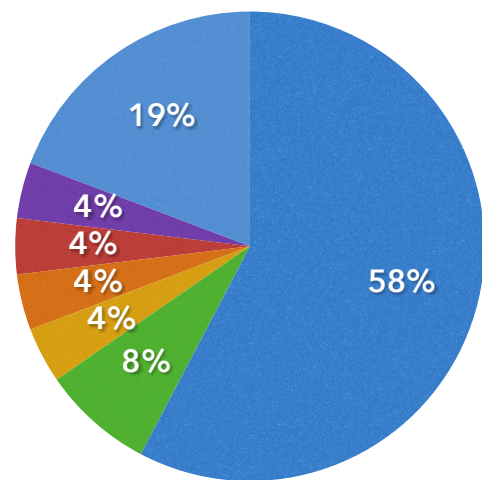

Inspiring

Our multicultural and multitalented facilitators will inspire them to explore and appreciate diversity.

We believe teachers should not only teach knowledge. In our home-school community experts and practitioners from various countries share their knowledge, skills and experiences.

Teachers and Staffs

- Indonesia
- Philippines
- South Africa
- Guatemala
- USA
- Australia
- others

We believe that learning is a journey which has to be enjoyed and nourished. Learning is a process to nurture passion and understanding that everyone is unique.
